Educational Opportunities for Children & Families (EOCF) is a 501(c)3 nonprofit, established in 1967 to provide for the success and well-being of children and families furthest from opportunity. From Prenatal support to Pre-K, EOCF reaches thousands of families annually, providing a stable pathway to success for the next generation of parents and community leaders.

## Message From The CEO

Dear EOCF Community,

Thank you so much for your continued support and partnership with Educational Opportunities for Children & Families (EOCF) during these unprecedented times. I am tremendously proud of the tenaciousness and resilience of our staff and families - although I'd be relieved if those description words left our vocabulary for a while. As we charge forward, I am proud to use powerful reflections like "healed" and "accomplished" as part of our everyday descriptors.

We kicked off the 2021-2022 program year with the intentional focus of rebuilding our agency's path forward: creating our "new normal." Proud to be back in-person with many of our classrooms up and running, we reached an astounding 86% enrollment rate - which, in comparison to the national average 50% enrollment rate - is a huge accomplishment. Into the program year, however, EOCF unfortunately faced what many of our community partners saw as well: The Great Resignation. Along with this nationwide challenge, the rippling effect of the pandemic continued to make an impact on our programming with the instability in facility security and increasing behaviors. With these challenges came great opportunity for feedback. Using this as a chance to listen and learn from our agency, we utilized an internal cultural audit to assess the greatest needs within our classrooms, staff, relationships at work - ultimately, assessing their overall experience with EOCF. We even surveyed families, donors, and community partners to better understand what they needed from us as a community thought leader.

And listen we did.

As the year progressed, we made impacts and strides we didn't think possible. We challenged our former beliefs and set our intentions for a prosperous future. We hold our heads high, reflecting on the many accomplishments achieved not only as an agency, but as the collection of growth-focused and talented individuals that create our EOCF Team.

Take a look at some of the positive strides we made this year:

- Investing \$1.1 million dollars back into staff wages while holding benefit costs steady.
- Annually, we are increasing base pay for over 150 employees by \$6,000 - \$12,000.
- Creating a robust staffing structure that both increases staff support within the classroom and provides vital developmental opportunities for professional growth.
- Partnering with local community leaders to assess and begin a Capital Campaign Feasibility Study, further evaluating the ability to increase the agency's ownership from two sites to five new sites within a dedicated timeframe.
- Increasing staff numbers for direct and supportive services, meanwhile broadening community partnerships with school districts and organizations to provide inclusionary classrooms that support our children's transitions back to in person services.
- Extending the Early Childhood Education & Assistance Program (ECEAP) through Summer to provide our children with even more valuable time for socialization before kindergarten.
- Expanding our families' and staff's cultural knowledge with over \$70,000 in diverse, multi-culturally representative books from our community partners at the Cowlitz Childcare Development Program, further emphasizing our expanding diversity, equity, and inclusion integration within classroom curriculum.
- Investing over \$100,000 into families requiring rental assistance, diapers, groceries, transportation/fuel, and the like – all in support of our agency's families' program engagement and attendance.

It's clear that EOFC has had the ability to continue our critical work because of support like yours. Because of you – our alumni, donors, supporters, partners, and incredible staff – we have been able to settle into our 'new normal' with ease.

Because of you, we have high expectations for the future of our impact.

Because of you we get to support the leaders of tomorrow.

REKAH T. STRONG, MSW, CEO

A handwritten signature in blue ink, appearing to read 'Rekah T. Strong'.

In appreciation,  
Rekah T. Strong, MSW  
Chief Executive Officer

## Mission, Vision, and Values

### Leading By Example

#### Mission

To connect, empower, and transform the lives of children and families.

#### Vision

Leading a legacy of change.

#### Values

Honesty, Relationships, Commitment, Inclusion, and Safety

**Educational Opportunities for Children & Families (EOCF)** is a leading provider of comprehensive early childhood education and family support programs in Southwest Washington. As the second largest social service nonprofit organization in Clark County, EOCF serves more than 1,350 children and families annually within the federal- and state-funded early learning programs the organization provides.

The primary mission of the organization is to provide a pathway to success for children and families furthest from opportunity. With success, EOCF has seen generational impacts of families overcoming poverty and expanding on their personal growth development.

As the need for early childhood education grows, EOCF continues to be a thought leader in this space, providing partnering organizations and local leaders with data that supports the efficacy of EOCF-operated programs including Head Start, Early Head Start, Early Childhood Education & Assistance Program (ECEAP), and the recreational program HotShots Youth Sports for grades 1 through 6.

# Programs and Services

## Resources Making a Difference

EOCF strives to provide an equitable environment for children and families to stay educated, healthy, and growing. This is done by providing at-home services, transportation to programs, comprehensive healthcare, prenatal education, family engagement activities, and nutritional resources.

### Kindergarten Readiness

Preparing students for kindergarten and beyond begins with ensuring that student goals align with the Head Start Child Development Early Learning Framework, Washington State Early Learning Guidelines, local public and private school programs and in concert with the families served.

### Head Start

Pre-K program for children ages 3 to 5 years old, offered in various classrooms or within the family's home.

### Early Head Start (EHS)

Prenatal and childcare program for infants and toddlers younger than 3 years old, offered in various classrooms or within the family's home.

### Early Childhood Education & Assistance Program (ECEAP)

Pre-K program for children ages 3 to 5 years old, offered in various classrooms.

### HotShots Youth Sports

Sponsored by EOCF, HotShots is a local youth recreation program providing basketball programs for children grades 1-6. The program teaches the importance of teamwork, instruction, fair play, and sportsmanship, all the while offering youth a fun environment to learn.

### Enrollment, Eligibility, and Qualifications

Access to these programs is free for families who qualify. Once applications are submitted, families are selected based upon risk factor criteria such as, children experiencing houselessness, in foster care, living with a disability, or from child welfare agencies. The organization actively recruits those whose income is up to 200% of the federal poverty level.

# Meet The Clay Family

## Next Generation Support

The holistic care that EOCF provides is encouraging. It provides a platform for growth for the entire family. Since enrolled in the programs, both Gary and Nakia feel that all three of their children, Isaiah, Magnus, and Louise, were so much more equipped to succeed in Kindergarten, and the journey to follow.

### A Bright Future

Isaiah and Magnus, the Clay Family's oldest children, were both born preemies, weighing around 2 lbs each. Worried about how they would develop, parents Gary and Nakia understood the importance of prioritizing their involvement in early learning.

By learning of EOCF's impact and programs through community partners, Gary and Nakia Clay enrolled their oldest son, Isaiah, in Part-Day Head Start program. As time went on, Isaiah's skills developed and they witnessed positive growth in a variety of ways, which inspired them to enroll him in Full-Day Head Start education. With a younger child still at home and another on the way, Nakia felt that Magnus could benefit from the Early Head Start program so Nakia enrolled him in Home Based learning, meanwhile enrolling herself in the Prenatal Early Head Start program for her future daughter, Louise.

“EOCF helped my kids build confidence in themselves and laid a solid educational foundation. EOCF instilled routine, fostered learning in every way, encouraged creativity and curiosity, and made my kids feel valued.”

**Nakia Clay**  
Program Parent & EOCF's Accounting Manager

As 3 year old's do, Isaiah socialized with peers and inquired about all things in the classroom, while the Home Based Early Head Start learner, Magnus, was introduced to curriculum within the family's home by EOCF's Child & Family Educators, learning about good habits, object recognition, and language, weekly. As the children grew, EOCF became the primary provider of the Clay Family's education, now having Head Start enrolled children and future graduates.

## Developing Skills

As a program parent, Nakia was intrigued by the opportunity to advocate for change within the organization and became a member of the Parent Policy Council. Similar to the role of a Board of Directors, the Policy Council is an essential part of the Head Start and Early Head Start program structure. As members of the organization's leadership, the Policy Council makes decisions about how the program spends money, what the children do within their classrooms, and how the program works with community partners.

By trying new things like public speaking, advocating to Elected Officials, reviewing financial reports, or assessing agency policies, she knew she wanted to continue supporting EOCF long-after her children became graduates. Empowered by her new leadership role, she was ignited with a curiosity that allowed her to step outside her comfort zone and progress in her professional development. And in 2021, Nakia was hired as the Accounting Manager for the organization.

## Empowering Everyone

The resources the Clay Family received were tailored to their needs as challenges were presented or when opportunities opened. When considering the ways to educate their children at home, they learned that they "didn't have to go out and buy all those expensive learning systems and toys...they could teach their kids with normal everyday things and experiences around the house." When approaching wellness within the home, EOCF provided focus on nutrition and has inspired their lifestyle - even supporting Gary's current progress as a student at Clark College's Culinary Arts program.

# Commitment to Diversity, Equity, and Inclusion

## Working Together for Each Other

The organization has a clear commitment to Diversity, Equity, and Inclusion (DEI) in all aspects. From a progressive workplace culture to that of insightful and current classroom curriculum, EOCF provides a safe environment for professional and personal growth.

### Team iLead

This multi-faceted, internal committee invites EOCF staff members to become thought leaders and decision-makers when it comes to outreach efforts, classroom engagement, and content creation. Team iLead focuses on educating staff and families on ways to include others from different cultures or backgrounds, respectfully and thoughtfully, with the mission of anti-racism at its core.

From organizing clean-ups at local parks, to participating at engagement events for community LGBTQIA2S+ groups and BIPOC organizations, EOCF prioritizes outreach that makes an impact on the region.

## Who We Serve

### Representing The Region

EOCF serves a diversity of children and families with varying backgrounds, languages, and religions, striving to include all families in the progress to reduce parity gaps through best practices. Staying committed to cultural responsiveness, EOCF prioritizes the inclusion and recognition of unique differences and historical experiences.

#### Preferred Language of EOCF Families

56% English	1% Russian
35% Spanish	1% Ukrainian
7% Additional	

#### Self-Identification of EOCF Families

50% Hispanic	4% Asian/Pacific Islander
26% White	1% American Indian/ Alaska Native
5% Black	

### Curriculum for Everyone

Donated by the Cowlitz Child Care & Development Program (CCDP), EOCF was provided funding for inclusive books, culturally representative literature, instruments, and items that reflect the unique children and families served.

By working with locally owned book sellers and curriculum experts, classrooms were able to cover topics like equity, socio-emotional awareness, heritage, and more, in developmentally appropriate ways.

# K-12 Readiness

## Platform For Success

According to the National Head Start Association, the definition of this readiness is depicted by “children possessing the skills, knowledge and attitudes necessary for success in school and for later learning and life.” This not only represents word or number recognition preschool often provides, but it encompasses the ever-present and important growth of socio-emotional skills developed best through practice and example.

EOCF’s Education Staff and Family Advocates employ these practices by evaluating the needs of the child/classroom on a case-by-case basis. Considerate observation is done to assure each child is represented and proper care is utilized.

It’s clear that the work of the agency’s staff and programs make a positive impact in the lives of the families they serve. When surveyed, the majority of 234 individuals representing EOCF program families agreed that:

**99%**  
**Positively Impacted**  
by EOCF programs and services

**97%**  
**Ready for Kindergarten**  
and their academic futures

**97%**  
**Developing Goals**  
with EOCF staff support

**93%**  
**Improved Development**  
both cognitively and emotionally

**96%**  
**Reaching Goals**  
with EOCF staff support

**97%**  
**Collaborative Relationship**  
between EOCF staff and families

## Holistic Approach

### Evaluating the Greatest Needs

By applying a holistic lens, children and their families are supported in multiple areas of development. From behavioral assessments to mental well-being, to dental care and financial education, families receive customized care that provides wrap-around support to prioritize long-term success.

### Behavioral Assessments

To assure an equitable environment to learn and grow, EOCF prioritizes screenings for each new and returning child. These 15-, 30-, and 45-day screenings cover mental well-being, dental care and check-ups, doctor visits and immunizations, environmental safety, and social-emotional behaviors that can affect a child's day-to-day learning. Various resource teams and behavioral health experts at the agency work to intervene when challenges arise, and when timely, work with community partners to advocate for continued care.

Throughout the region, healthcare providers, school districts, and local partners refer and recommend EOCF's services as the first-choice for early childhood care and family assistance due to the customized support that provides for generations of wellness. By working closely with community partners and providers, EOCF's ability to expand on services offers program families ongoing care in multiple different areas of support.

**“These children are going to grow up and take care of you someday. I want him to be a good citizen and EOCF is the best start!”**

When introduced to early learning, Tristan was diagnosed with a speech delay but throughout his time at EOCF, Tristan progressed through speech therapy and now participates in classroom activities along with his fellow peers.”

– Maura Baker, Policy Council member & Program Parent of Tristan

### Inclusion

Modification options and adaptive equipment are often provided to program children and families that require additional support. In addition to individualized screenings, classroom observations are made to assess the needs for tools or broader resources that can support the development of each child. This creates a sense of relief for families while empowering children to aim for their goals during this vital growth period.

“It’s all about equity and inclusion, and interpretation offers the families we serve the ability to share with them information that makes them feel a part of the larger mission and vision.”

**Andrea**

Spanish/English Interpreter, 9+ Years

### Language Interpretation

Due to historical structural racism, children of color face significant barriers to success in school and in life. Recognizing this, EOCF strives to create an equitable environment for early learners, particularly for children of color and children who are non-native English speakers, to reach their full potential.

Interpreters help families feel included, heard, and important. For many of EOCF’s program families, they enter the program coming from various cultures. Interpreters assure program families feel at ease to discuss challenges or next steps with their goals. They provide effective and accurate communication while emphasizing and showcasing the diversity of the community we serve.

### Health & Nutrition

By meeting these needs, children in the program can bring their best selves to the classroom, creating a stable environment to learn. Program children receive 1/3 to 2/3 of their daily nutritional needs through the organization. With backed research and a nationally award-winning Nutritional Services team in the kitchen, classrooms are provided with varieties of snacks and meals that cater to unique needs or allergies, as well as cultural backgrounds and religions.

In 2022, EOCF’s Nutrition Team was nominated for the National Child & Adult Care Food Program’s Inspire Collaboration Award for providing dedicated care and resources for children and families throughout Southwest Washington.

## Family Engagement

### Outreach & Impact

To further support program families, our dedicated team of Family Advocates work diligently to bridge connections to resources. By goal-setting with families, our EOCF staff can predict what future enrolled families may need within programs.

#### Access to Technology

Program families are provided tools that assist in reaching goals and developmental checkpoints throughout the program year. These tools can include iPads, laptops, informational sessions, and engagement activities that encourage education and confidence in using the tools available.

#### Outreach

This year, program families participated in many engagement events, most notably virtual activities, end of year celebrations, and community outreach. Donation drives within the community provided thousands of resources and items for our families in the form of diapers, baby formula, gas cards, books, and even clothes. With partnerships growing, EOCF continues to connect with community leaders to further educate about the importance of Early Learning as well as the impact of EOCF's generational legacy.

#### Parent University

Parent University was developed to give program parents and employees a strong foundation for employment eligibility and success with EOCF. It provides a combination of employment services, training, and education at no cost to eligible participants. Created with local partners, Parent University is an opportunity to build the future Early Learning workforce.

#### Did you Know?

EOCF's Information Technology (IT) team provided 166 iPads to families throughout the 2021-2022 Program Year. Each were set up for access to parent/child resources.

# Leading By Example

## Joining Insight and Experience

EOCF is uniquely governed by two volunteer committees: the Board of Directors and the Parent Policy Council. Both vital to the success of the agency, these committees provide their representative expertise and insight to the Executive Management Team to further the prosperity of the organization.

### Board of Directors

EOCF's Board of Directors is represented by local professionals and business leaders within Southwest Washington. This includes former program parents, attorneys, CFOs, CEOs, Medical and Mental Health professionals, and local Educators – even Head Start alumni.

**Ken Torre**  
*Board Chair*

**Jada Rupley**  
*Vice Chair*

**Rollin Perrigo**  
*Secretary-Treasurer*

**Jake Van Dyke**  
*Past Chair*

*Board Members:*

**Jason Green**  
**Mei Taylor**

**Gary Singleton**  
**Tabitha Presser**

**Tony Cash**  
**Denise Gideon**

**Bob Harding**  
**Pamela Loh Veljacic**

### Parent Policy Council

Representative of the families EOCF serve, the Policy Council is comprised of parents or guardians from each site, along with a few community members.

**Aretha Johnson**  
**Blanca Guzman**  
**Bola Majekobaje**  
**Brenda Pintor de Cerrato**  
**Carri Kerr**

**Damayanty Vazquez Miranda**  
**Elizabet Silva**  
**Eva Valencia**  
**Gabby Gutierrez**

**Holly Swenson**

## Primary Funding Resources

- HotShots Youth Sports Program
- U.S. Department of Health and Human Services
- State of Washington Departments of:
  - Children, Family, and Youth
  - Office of Superintendent of Public Instruction

## Accountability: Audit Results

We are good stewards of the funding and donations entrusted to us. For the fiscal year ending October 31, 2021, EOCF is pleased to report that we had a clean and unqualified audit and we are in compliance with all requirements. The federal Office of Head Start reviews all Head Start programs on a regular basis to ensure quality and stewardship.

## The Greatest Need

### Supporting The Future

For over 55 years, EOCF has been investing in the lives of over 1,350 children and families furthest from opportunity, daily. Services are provided at no cost to those who qualify. EOCF is primarily supported by federal and state grants, however, to secure additional grant funding to fill the gaps and to expand the essential services we provide in the community, we need your help.

### Your Donations Add Up!

With contributions from local partners and generous donations, EOCF is able to provide:

- At-Home Learning
- Playground Equipment
- Resources & Training
- Educational Adventures
- Future Facilities

Scan Me  
To Donate!

### \$10 Per Month

Feeds daily servings of breakfast, lunch, and snacks for two children.

### \$25 Per Month

Supplies every infant and child at EOCF with toothbrushes and dental care tools.

### \$100 Per Month

Provides all classroom and home-based children with portable vision screenings.

### “Color Their Worlds” with Opportunity

Annually, EOCF participates in fundraising events and opportunities that engage the community, including the Gala & Auction “Color Their Worlds.” With attendance by local partners to future stakeholders, this event celebrates the agency’s successes and provides insight into EOCF’s life-changing programs.

## Turning Vision into Action

Learning about EOCF is the first step to becoming an advocate for the agency – and for the children and families who need the most support. Read blogposts about programs and classroom success stories at [EOCFWA.org](https://www.eocfwa.org), and follow us on social media at [@EOCFWA](https://www.instagram.com/eocfwa) on Instagram, Facebook, LinkedIn and Twitter.

### Donate to EOCF

Go to [EOCFWA.org/Donate](https://www.eocfwa.org/Donate) to set up your one-time or monthly donations to provide for the greatest needs. Or, make it easy on your accounting by ‘rounding up’ to the nearest dollar on all your purchases. That spare change goes directly to EOCF’s ability to continue the programs and services that make a generational impact.

### Partner with EOCF

Consider becoming a Champion for Children Donor, an Event Sponsor, or a go-to partner for field trips, giveaways, or community engagement. Secure the future of the EOCF’s impact by connecting with us at [Outreach@EOCFWA.org](mailto:Outreach@EOCFWA.org).

When we opened our doors in 1967 to provide Head Start preschool programs to children furthest from opportunity, our mission was to provide care and education to the growing communities throughout Clark County.

Since then, EOCF has opened classrooms in Pacific County, Cowlitz County, and work together with local school districts and partners like Learning Avenues Child Care Centers to provide growing communities the resources necessary to succeed.

Serving thousands of families each year through Head Start, Early Head Start, ECEAP, and family services that benefit unique family units throughout the region, our staff and agency partners deliver high quality, holistic care that provides for the growth of each individual we serve.

Thanks to your support, we can continue our legacy of success for generations to come!
